Arabic

About Me

Graduated in Software Engineering from ISIMM, with a strong focus on web application development and data analysis. Proficient in building modern web applications using technologies like React.js, Node.js, and Express.js, with additional experience in Java. Passionate about creating interactive, scalable solutions and eager to contribute to innovative and impactful projects in a professional environment.

Projects

EduSkills – E-learning Platform (Final Year Project – PFE) — 2025

Technologies: ReactJS, Node.js, Express.js, PostgreSQL, Bootstrap, AWS (S3), JWT, i18next
A scalable full-stack platform for tutor-led course creation and management.
Key features include:
- Course uploads (videos, PDFs), quizzes, live sessions (Socket.IO), multilingual support (i18next)
- Admin dashboard for managing users, content, and analytics
- Secure JWT-based auth, cloud deployment on AWS, and RESTful APIs with Swagger docs

- **GitHub: https://github.com/souhail747/study**

Personal Portfolio Website — 2024

Technologies: ReactJS, JavaScript, Material-UI, Lottie, Framer Motion, Firebase
- Responsive single-page portfolio to showcase personal projects.
- **Website: https://lastporto.web.app**

E-commerce Website — 2024

Technologies: ReactJS, Material-UI, Strapi
Built a fully responsive e-commerce web application using a headless .
CMS architecture for dynamic content management.
- **GitHub: https://github.com/souhail747/e-comm**

Games Website — 2024

Technologies: ReactJS, JavaScript, Material-UI
- Built two games: Tic Tac Toe and a memory card game.
- **GitHub: https://github.com/souhail747/Games**
